

Frank P. Pettinelli, Jr., D.O. Mt. Laurel, NJ Family Medicine, Geriatric Medicine

"I enjoy practicing medicine as it used to be, wherein a physician could treat the whole patient by spending the necessary time in order to do so. By putting the patient first and emphasizing quality and prevention, Total Access Medical allows me to practice the kind of medicine that first drew me into the medical field. My passion is for quality patient care and I understand the importance of communication and respect in order to build a strong patient- physician relationship."

A graduate of Temple University and the Medical College of Philadelphia and board certified in Family Medicine and Geriatric Medicine, Dr. Pettinelli has been practicing in Mt. Laurel since joining his father's practice in 1984. Dr. Pettinelli brings an unparalleled level of experience to both his patients and the TAM network. As one of the most respected physicians in the South Jersey area, Dr. Pettinelli places a strong emphasis on providing complete and quality care to his patients. Much of his career has been dedicated to furthering his education. This has been accomplished through an affiliation with Summit Research Solutions as well as the participation in clinical drug trials for all of the major pharmaceutical companies. In addition to his medical research activities, Dr. Pettinelli spent twenty years serving as the Medical Director for the Mt. Laurel Convalescent Center, one of the largest nursing and rehabilitation centers in South Jersey. He was instrumental in starting the first subacute rehabilitation program in the South Jersey area. Dr. Pettinelli was also the CEO of the multispecialty group Family Practice Medical Associates, PC. which specialized in the hospital and nursing home care of geriatric patients. A guest lecturer at The Philadelphia College of Osteopathic Medicine, Dr. Pettinelli is a member of the American Medical Association, the American Osteopathic Association, the American College of Osteopathic Family Practitioners, the New Jersey Association of Osteopathic Physicians and Surgeons, and the American Medical Directors Association.
